Passionate About Customer Satisfaction

3 Global Support Centers, Providing 24x7 Service

Driven by Values and Commitment to Customer Success

At AlgoSec, our passion for customer satisfaction drives the Company's mission and guides our corporate culture and core values. We have corporate goals for time-to-production, and our team is measured on customer's post-production satisfaction. Moreover, we are the only vendor in the industry to offer a money-back guarantee.

Additionally, we provide a variety of Professional Services to help you achieve maximum ROI from your AlgoSec investment as quickly as possible.

Financially Independent and Strategically Focused

AlgoSec is the only company in the security management space that is controlled by its founders. This financial independence allows the company to focus on building long-term partnerships with existing customers rather than on external investors' short term objectives.

AlgoSec has been profitable for over eight years in a row while growing at an average annual rate of 30% for the past five years.

Extensive Partner Ecosystem

AlgoSec strategically partners with the leading solution providers to ensure compatibility and seamless integration with critical enterprise technologies and support any heterogeneous cloud, SDN and on-premise enterprise networks.

Key strategic partners include:

"AlgoSec now does the heavy lifting for us, allowing our engineers to focus more time on security than on process and change."

Phil Packman, General Manager, Security Gateway Operations

BT

"With AlgoSec we can now get, in a click of a button, what took two to three weeks per firewall to produce manually."

Mark Silver, Security Manager

Discovery

"We chose AlgoSec because right from the first meeting, it was obvious that **they wanted to be a partner** rather than just sell a product off the shelf."

Peter Erceg, Head of IT Security

T· ·Mobile·

"AlgoSec helped us **reduce 80% of the time** required to migrate the security of our applications as part of our data center consolidation project."

Bruno Rolleau, Network Security Architect

SANOFI

"With AlgoSec, not only did we improve visibility of our security policy and device configurations, we were also able to gain tremendous operational savings by automating many of these processes."
