

ALGOSEC TRAINING

AlgoSec offers a variety of comprehensive training courses designed to help you become more proficient, and quickly understand all the features and customization options within the AlgoSec Security Management Suite.

Level 1 — User Courses (Online Self-Training)

AlgoSec provides FREE online training for customers and partners to learn AlgoSec Security Management Suite basics. Courses include:

- [Performing Compliance & Risk Analysis using AlgoSec Firewall Analyzer Reports](#)
- [Performing Policy Optimization using AlgoSec Firewall Analyzer](#)
- [Performing Basic AlgoSec Firewall Analyzer Troubleshooting](#)
- [Defining Check Point Devices in the AlgoSec Security Management Suite](#)
- [Defining Cisco, Fortinet, Juniper, McAfee & Palo Alto Devices in AlgoSec Security Management Suite](#)
- [Exploring Your Network with AlgoSec Firewall Analyzer](#)
- [Managing Traffic Change Requests in AlgoSec FireFlow](#)
- [Working with Applications using AlgoSec BusinessFlow](#)
- [Creating and Discovering Applications using AlgoSec BusinessFlow](#)

Certification: Students who complete all the Level 1 courses are certified as AlgoSec Security Users (CASU).

Level 2 — Administrator Courses

AlgoSec customers and partners who have completed the Level 1 certification program can complete Level 2 to learn how to:

- Plan, implement and install AlgoSec Firewall Analyzer and learn how to use the product for day-to-day operations.
- Work with different AlgoSec FireFlow OOB workflows and learn how to configure and administer the product.

The training includes both a theoretical knowledge transfer as well as a hands-on lab. Courses are taught at different [locations](#) around the globe, and in a [virtual classroom](#) setting.

Certification: Students who complete Level 2 courses are certified as AlgoSec Security Administrators (CASA).

Highlights

- Gain the information you need to become an expert
- Learn in a setting and pace that meets your preferred style and budget
- Multiple certification levels:
 - User
 - Administrator
 - Expert

Level 3 — Expert Courses

AlgoSec customers and partners who have achieved Level 1 and Level 2 certification can complete Level 3 to learn how to:

- Work with AlgoSec Firewall Analyzer and apply advanced capabilities such as map modeling and troubleshooting, architectures and environments, baseline compliance, risk profiles, customized reports and more.
- Configure AlgoSec FireFlow to adapt the product for specific needs including customization to support unique workflows.

The training includes both a theoretical knowledge transfer as well as a hands-on lab. Expert courses are taught at different [locations](#) around the globe.

Certification: Students who complete Level 3 are certified as AlgoSec Security Experts (CASE).

Geek Week

Held once a year at a popular destination in the US and in Europe, Geek Week is AlgoSec’s premier training event. This week-long event provides a forum for customers to get the latest AlgoSec certifications, network with fellow AlgoSec users and gain insight into the AlgoSec roadmap and vision.

A Wide Variety of Training Delivery Options

AlgoSec offers multiple ways to deliver the information and expertise you need to fit your learning style and budget:

	<p>Classroom Training In-depth, classroom-style training is instructor-led and includes a hands-on lab.</p>
	<p>Virtual Classroom Training High-quality, instructor-led training and content – without the travel! Training is conducted remotely via GoToWebinar sessions.</p>
	<p>Online Self-Training Convenient and cost-effective training that enables you to learn at your own pace in an e-Learning environment.</p>
	<p>Private Onsite Training Live, instructor-led courses and a hands-on lab at your site.</p>
